**The Society for the Protection of Unborn Children** have sent a petition to be sent to the Secretary of State for Health, asking for as many signatures as possible in a request to ensure that doctors do not misinform and mislead women by authorising abortion on invalid health grounds. Under the Abortion Act 1967, nearly 4,000 babies are aborted every week in Britain. Most abortions (97%) are authorised because it's claimed that the pregnancy is a risk to the mother's mental health, but the latest medical evidence confirms that abortion does not lead to better mental health for women. The law is clearly being abused. Now the Department of Health, instead of enforcing the law, is seeking to widen abortion services even further. Please sign the petition form at the back of church, and help the SPUC to fight this proposal; it must not be allowed to happen. Thank you
