Development and New Church As some parishioners have noticed, the planning application of last February has now been withdrawn by the Developer. This was because in its original state, the proposal was unlikely to have cleared all the hurdles necessary for planning permission to have been granted. The current position is that the Developers, having taken soundings with the Planning Authority, withdrew in order to re-structure the proposal to mitigate potential concerns. Once these have been addressed the Developers intend to re-submit an enhanced proposal having taken into account the necessary changes in order that the re-submitted proposal will stand a better chance of gaining approval. I understand that a fresh application will be submitted during June. Obviously how this will impact on the time line remains to be seen, but suffice to say that the original application was never considered by the Planning Authority and has not been turned down.
